

## CounterCache intelligent ("CCi")

With CCI, cash accepted by your till operator is never touched again until it reaches your bank.

It slashes cash handling costs whilst reducing shrink and eliminating counting errors. So CCI offers significant benefits for operations, accounts and loss prevention teams.

### Operational efficiencies:

- o Physical cash processing becomes virtually obsolete.
- o Cash Office human resources are freed up to devote their time to customer focused activities; to maximise revenues
- o One-touch cash handling, from the customer to the bank
- o Notes are validated, counted, stacked and secured with 100% accuracy
- o Count accuracy accepted by CiT companies and banks
- o Case studies show CCI reduces cash processing costs by 75% per annum on average saving retailers millions of pounds
- o Perfect note presentation means cash is ATM ready
- o Can be tailored to current systems and processes
- o CCI can be integrated with any EPOS system
- o Full control of revenues and full audit trail
- o Cash reconciliation and bank reports are generated at the touch of a button
- o Cable or wireless connectivity
- o Easy to use with minimal training
- o Simple to evaluate and compare with existing systems

### Accounting efficiencies:

- o Bar-coded pouches facilitate full audit trail
- o CashView™ device management software gives total visibility of all cash transactions down to till level
- o CCI has validated billions of pounds of cash over the last 4 years without a single error
- o Rapid ROI

### Loss Prevention efficiencies:

- o Safely stores large amounts of cash at your till points – up to 900 notes
- o POS security is improved by removing the temptation for till snatches
- o Staff are at less risk of attack and feel safer
- o Tamper evident pouch technology protects lifted cash
- o Makes investigation of cash anomalies quick and decisive
- o Detects all known forgeries, with 100% accuracy, and stops them dead
- o Dye penetration and i-box approved for transport by CiT carriers
- o Data cached and cash protected in the event of power failure

### EPOS

CCi units can be integrated with any EPOS system to provide a suite of information that can transform a business's cash handling processes. Retailers can manage, monitor and maintain an estate of CCI units centrally, either from a cash office or head office, giving them total visibility and control of all cash transactions.
